

ADIO

Privacy Policy

1. Introduction

Adio ("we," "our," or "us") is an AI-assisted reading comprehension tool designed to support children with autism and related communication differences. We are committed to protecting the privacy of our users, especially children. This Privacy Policy describes what information we collect, how we use it, and how we protect it.

By using Adio, you agree to the practices described in this policy. If you do not agree, please discontinue use of the application.

2. Who We Serve

Adio is designed for use by children, primarily under parental or educator supervision. We do not knowingly permit children under 13 to create accounts or submit personal data without verifiable parental consent, in compliance with the Children's Online Privacy Protection Act (COPPA).

If you are a parent or guardian and believe your child has provided personal information without your consent, please contact us immediately at the address listed below.

3. Information We Collect

3a. Information Provided by Users or Guardians

We may collect the following information when setting up or using the app:

- Parent or guardian name and email address (for account creation and communication)
- Child's first name or nickname (for personalization)
- Age range or grade level (to calibrate reading difficulty)
- Optional notes about communication preferences or learning needs

3b. Information Collected Automatically

When you use Adio, we may collect:

- Voice or speech recordings submitted for reading comprehension analysis (processed in real time; see Section 5 for retention details)
- Session interaction data (e.g., words read, comprehension responses, time spent)
- Device type and operating system (for compatibility and debugging)

- Anonymized usage statistics to improve the application

3c. What We Do Not Collect

We do not collect:

- Full name, address, phone number, or Social Security number of any child
- Photographs or video of children
- Behavioral profiles for advertising or third-party marketing purposes

4. How We Use Information

We use the information we collect to:

- Provide and improve Adio's core reading comprehension features
- Personalize the experience based on the child's reading level and communication style
- Analyze speech input using our fine-tuned automatic speech recognition (ASR) model to generate comprehension feedback
- Diagnose technical issues and improve application performance
- Communicate with parents or guardians about account matters or updates

We do not use any child's personal information for advertising, profiling, or sale to third parties.

5. Voice and Speech Data

Adio's core functionality involves processing spoken audio to support reading comprehension. Here is how we handle that data:

- Voice input is captured on-device and transmitted securely to our servers for real-time ASR processing.
- Audio recordings are not stored beyond the duration of a session unless you explicitly opt in to data sharing for model improvement purposes.
- If you opt in, anonymized audio samples may be retained for a limited period to improve the performance of our ASR model for dysarthric and atypical speech patterns. You may withdraw consent at any time.
- We do not use voice data to identify children by name or link audio to personally identifiable information.

6. Sharing of Information

We do not sell, rent, or trade personal information. We may share limited data with:

- Service providers who assist with cloud infrastructure, data storage, and analytics, under strict data processing agreements
- Research partners (only with parent/guardian consent and using anonymized data)
- Legal authorities if required by law or to protect the safety of users

Any third-party service providers we work with are contractually required to maintain the confidentiality and security of any data they process on our behalf.

7. Data Retention

We retain personal information only as long as necessary to provide our services or comply with legal obligations:

- Session data is deleted within 30 days of the session unless retained with consent for model improvement.
- Account information is retained until the account is deleted or upon request.
- Anonymized usage statistics may be retained indefinitely for research and development purposes.

You may request deletion of your data at any time by contacting us (see Section 11).

8. Security

We use industry-standard technical and organizational safeguards to protect personal information, including:

- Encryption of data in transit (TLS) and at rest
- Access controls limiting who within our team can access user data
- Regular security reviews of our infrastructure

No system is perfectly secure. If you believe there has been a security incident affecting your data, please contact us immediately.

9. Parental Rights (COPPA)

Parents and guardians of child users have the right to:

- Review the personal information we have collected about their child
- Request correction or deletion of that information
- Refuse further collection or use of their child's information
- Withdraw consent for optional data sharing at any time

To exercise these rights, contact us at the address listed in Section 11. We will respond within 30 days.

10. Changes to This Policy

We may update this Privacy Policy from time to time. When we do, we will update the effective date at the top of this document and notify registered users by email. We encourage you to review this policy periodically.

11. Contact Us

If you have questions, concerns, or requests related to this Privacy Policy, please contact us at:
